VAPOR PROOF LED FIXTURE

• INSTALLATION INSTRUCTION •

The Origin Vapor Proof LED light is designed with a steel cage, ensuring safety. It is IP65 rated for both dry and wet locations. The mounting is designed to work with the majority of electrical boxes. The 90-180 degree adjustable angle allows it to fit multiple applications, such as vertical and horizontal installations as well as sloped ceilings.

IMPORTANT SAFETY NOTICES:

When using electrical equipment, basic safety precautions should always be followed

WARNING: Operating temperature: -30°C to 45°C (-22°F to 113°F).
